Subject: RE: M6H1-Harvey Response--Superfund Site Sampling
Date: Thursday, September 7, 2017 10:26:55 AM

If the PRPs are sampling, we need 48 hour turnaround. Electronic deliverables will be needed.

Subject: M6H1-Harvey Response--Superfund Site Sampling

RPM, please see the attached team leads and the sites that they will be sampling. Also attached is the SOW description of the type of sampling requested.

Call me if you have additional questions. We will be meeting with the EPA contractor in just a bit and will get contact information from them and pass to the Team Leads.

Sampling: up to 4 samples per site

Soil: 5pt composites

GW: bailer, first water draw

Please provide the following information to the Team Leads.

1. Contact information: your contact information as well as that of the PRP/PRP contractor/etc
2. Whether the PRP will conduct the sampling or if we need to do it.
3. The primary COCs and the cleanup goals for your site.
4. Up to 4 sample locations depending on the type of site and the amount of erosion or disturbance expected.---Locations for sampling: soil and ground water or just soil or just ground water

Team Leads: if you do not get this information by 100pm. Refer to the sharepoint file for the RPM and contact them.

1. Coordinate with RPM to identify sample locations.
2. Coordinate with PRP/PRP contractor/ EPA contractor/etc for site sample schedule and access
